

## Nicolas Foureur

Physician

[nicolas.foureur@aphp.fr](mailto:nicolas.foureur@aphp.fr)

### Curriculum vitae

Nicolas Foureur is a dermato-venereologist. After two years in a geriatric dermatology ward, he followed the training of the Clinical ethics center (Cec) before joining it part-time, in addition to a liberal activity. Since 2016, he is a full-time hospital practitioner at the Cec. He continues a dermato-venereology activity at the Sexual Health Center of the Hôtel Dieu hospital.

He participates to the CODE (ethical coordination) of the Assistance Publique - Hôpitaux de Paris and is a member of the ethics committee of the hospital group Broca-Cochin-Hôtel Dieu.

He belongs to the European network of clinical ethics in psychiatry.

He is secretary of the association « Vieux et chez soi » (Old and at home), to add on the public debate on old age and dependency.

He was president of the association "Ethics, clinic and society" from 2009 to 2019.

### Teaching activities

- In addition to interventions at University Degrees, seminars, professional meetings or in a student's school,
- he co-coordinates the clinical ethics training activity provided by the Cec
- and he is founding an initiation to clinical ethics for all professionals of the Assistance Publique - Hôpitaux de Paris

### Research topics in clinical ethics

#### - **Aging:**

- o Behavioral and Psychological Symptoms of Dementia and their management in special medical care unit
- o An experimental project on the (refusal of) institutionalization of elderly people who have become dependent in collaboration with the association "Vieux et chez soi" (old and at home).
- o Discussions on "advance directives" in nursing homes
- o Other: colorectal cancer, gastrostomy in demented patients.

- **End of life:** perceptions of relatives and caregivers during decisions concerning the feeding and/or hydration of a patient in an end-of-life context

- **Psychiatry:** the decision to involuntary hospitalize in psychiatry

- **Sexual health:** the use of "PrEP" (Pre Exposure prophylaxis) as a new tool for HIV prevention.
