

# ICCEC 2021 SOUTH AFRICA

30 NOVEMBER - 3 DECEMBER 2021

16th Annual International Conference on Clinical Ethics & Consultation

## PROGRAMME

### TUESDAY, 30 NOVEMBER 2021

08:00 – 09:00 **Workshop registration**

09:00 - 16:00 **Pre Conference Workshop 1:**

Paediatric Ethics

**Agnihotri Biswas, Calvin Ho, Roy Joseph, Sharon Kling, Anita Lim, Aishworiya Ramkumar, Daniel Sidler**

The workshop aims to bring greater effectiveness in identifying and resolving contemporary and emerging ethical issues in clinical paediatrics. It will provide opportunities for participants to build on their knowledge, skills and attitude in the domain of Clinical Ethics. Issues originating from value conflicts, consent, confidentiality, innovation and affordability and the role of Ethics Consultations will be examined.

The pedagogy will be based on the adult learning model and hence will devote significantly more time for experiential learning in groups using clinical vignettes.

10:00 - 15:00 **Pre Conference Workshop 2:**

Ethics in Patient Care

**George Agich, Cynthia Coleman, Kurt Maart, Lulu Nair, Emmanuel Obasa, Keymanthri Moodley**

This workshop will explore the development of clinical ethics services globally including common problems and challenges facing the field. It will distinguish clinical ethics work from the better-known work of research ethics committees and discuss the evolution of the field.

The workshop will be interactive. Each presentation will be followed by small group discussion of local clinical challenges that create ethical dilemmas. Presenters will offer examples of how a clinical ethics committee or ethics consultation service can help address these uncertainties. Groups will also brainstorm strategies for developing clinical ethics resources within individual participants' institutional, cultural, social, and legal settings.
